Trans Gulf Transportation Opens New Greater Dallas Terminal

Terminal provides expanded reach for Houston-based company's clients

HOUSTON, Nov. 29, 2011 – Houston-based Trans Gulf Transportation, a division of Dunavant Transportation Group, LLC, today announced the opening of its new 3.5-acre Dallas terminal located at 1001 S. Interstate 45, suite B, in Hutchins.

The new facility is located adjacent to the Dallas Intermodal Terminal, providing quick access to the Dallas Metroplex population. In addition, this facility will provide a full range of intermodal services and dry van operations.

“The opening of our new Dallas terminal is a good fit for Trans Gulf’s business model because it adds to our fleet and allows us to cater to the regional needs of our current customer base,” said Billy Keys, president and CEO of Trans Gulf Transportation. “Its strategic location was one we felt necessary for the continued growth of our company in order to increase business flow and demand in the Houston-Dallas lane, as well as Oklahoma.”

The Trans Gulf Dallas terminal will be managed by Tim Gould, who has more than 15 years of experience in logistics and transportation. He will manage freight and shipping traffic flow for the terminal.
